

## **SIGMAA MCST Activities at the January 2009 Joint Math Meetings**

The charter for SIGMAA MCST was approved just before the January 2009 Joint Math Meetings. Although it was too soon for the SIGMAA to sponsor a special session in its own name, we did sponsor a guest lecture on Math Circles and held a business meeting. One of our members presented (and many others attended) during the MAA Session on “Productive Roles for Math Faculty in the Professional Development of K-12 Teachers”. Our members also attended the National Association of Math Circles Meeting and the two organizations sponsored a joint reception.

**Monday January 5, 2009, 2:15-6:10 pm** “MAA Session on Productive Roles for Math Faculty in the Professional Development of K-12 Teachers”

**3:35 - 3:55** Brazos Valley Math Teachers’ Circle: Formation and Activities, Philip B. Yasskin, Texas A & M University

**Monday January 5, 2009 :**
